WHO ARE WE?

We are a young and dynamic engineering company founded in 2024, located in Belgrade, Serbia. Our mission is to provide innovative and sustainable engineering solutions that meet our clients' needs and contribute to community development.

We were founded in 2024 by a team of experienced engineers with a vision to create a company that delivers top-notch engineering solutions. Since then, we have grown rapidly and expanded our project portfolio.

Our target markets include the construction industry, energy sector, and industrial complexes. We are known for our innovative solutions and ability to tailor our services to the specific needs of our clients.
